NYSERDA announced the Energy to Lead competition in October 2015 to challenge colleges and universities to develop innovative plans for clean energy projects. The REV Campus Challenge is issuing the Energy to Lead competition to challenge institutions and student-led coalitions across the State to develop and implement plans that advance clean energy on their campuses and explore new opportunities in new ways.

Awards

NYSERDA anticipates making three awards to colleges and universities. The three teams that propose the best solutions for an innovative clean energy project in energy efficiency, renewables, and/or greenhouse gas emission reduction or mitigation will each win \$1 million to help implement their plans.

Request for Proposals

Proposals are due by April 4, 2016 at 5:00 p.m. Eastern time.
