Seamless Transfer Update

Full Implementation by Fall 2015

SUNY Mathematics Transfer Path Review

Welcome to the SUNY Transfer Path Faculty Review. The goal is to review and revise, if necessary, the core knowledge and skills needed to complete the Transfer Paths by SUNY faculty groups, which students need to master to be admitted to a SUNY college as a sophomore year in order to be able to complete a baccalaureate degree with two more years (4 semesters) of full-time study. As a faculty representative, your role is to provide expertise in your discipline within the online discussions which will conclude by March 14.

Updated review materials, guidelines, and technical support resources are available at the SUNY Transfer Path Faculty Review Portal: <http://www.suny.edu/provost/transferpathreview/transpath.cfm>

IMPORTANT NOTES:

1) Within the Learning Commons, you should post only within the Discussion Forum located in the left hand menu. If you reply to a comment in the 'Activity Feed' below this section without going into the Discussion Forum, your comment may not be viewable as the discussion proceeds.

2) If you click 'Leave Group' below, you will be removed from the group and lose access to this SUNY Transfer Path Review Group.

To enter the discussion, click on the 'Forum' link to the left.

Data Driven Policy Making

“...a key component of any information campaign, report card, or ratings system is that data must not be presented in isolation, but rather with appropriate context, such as institutional mission, student demographics, and national benchmarks where appropriate.”

***- Bringsjord Testimony 2014
College Affordability Rating System
Submitted to U.S. Dept. of Education***

Open SUNY

Effective Use of Technology

Open SUNY aims to provide students with the nation's leading online learning experience. Open SUNY aims to draw on the Power of SUNY and support campuses and faculty to:

- Dramatically expand **access** to higher education
- Raise **completion** rates
- Prepare students for **success** in their lives and careers, and contribute to the economic success of New York State and beyond

Expanded focus on Research and Innovation

Expanded focus on Research and Innovation

Understanding the Science of Teaching and Learning

Office Updates

- **Phill Ortiz and Ken O'Brien are surviving remarkably well!**
- **Recent organizational changes at System to allow a greater focus on our core academic mission, including naming:**
 - **Jason Lane, Senior Vice Provost for Academic Affairs**
 - **Carlos Medina, Chief Diversity Officer**
- **We have just begun a search for a Vice Provost of Strategic Enrollment Management**
- **We are about to conclude our search for the Director of our newly named Office of Institutional Research and Data Analytics**
